

YEARBOOK

2018—2019

Swindon U3A

(Registered charity number 298853)

“Learning together,
talking together,
working together”

Who We Are

What is the University of the Third Age (U3A)?

Most of our lives we have been learning new things, whether this be at school, college or at work. Now that we have come to our third age which is our retirement, we are free to follow interests that give us pleasure but that will continue to keep us active and alert in our later years.

Members with specialist knowledge or skills are an asset to groups but many groups have no such "expert". Motivated by their common interest, members encourage and help each other in a variety of ways. It is this emphasis on everyone in the group accepting responsibility for their own learning and helping others which makes U3A groups distinctive and innovative. The actual existence of the groups, however, would not be possible without the enthusiasm of the Group Organisers who are so generous with their time, and in many cases their homes

Notes on Applying for Groups

First find a group or groups which interest you. You can look by day of the week or there is an alphabetical index at the back.

- Contact the group organiser to see if there are spaces. If a group is full, ask to be put on a waiting list. If necessary a new group will be started to meet demand.
- As a new member you may attend one session as a taster but if you wish to continue going to the group, you must
- Please let the Group Organiser know if for any reason you are unable to attend. This also applies should you decide to leave a group. The Organiser can then fill your place from the waiting list.

Participative Learning

(The ethos of the U3A)

It may be helpful, particularly to new members, to emphasise the fundamental ideas of a U3A group. In traditionally taught classes found elsewhere, the expert teacher chooses the subject matter, decides how it will be presented and teaches it. In a U3A group, all should contribute as best they can to both teaching and learning. It is nothing if not a co-operative enterprise - a process of mutual learning.

It can be very helpful if a member has specialist knowledge or skills but some of the groups don't have this expertise. Motivated by their common interest, members encourage and help each other forward in a variety of ways. It is this blurring of the distinction between teacher and taught, this emphasis on both accepting responsibility for our own learning and helping others, which makes a U3A group distinctive and innovative.

Open Day

Saturday, 1st September 2018

10:00am until 12:30pm

St Joseph's Catholic College, Ocotal Way, Swindon, SN3 3LR

The Open Day allows prospective members to see what is on offer, and existing members to see what else they might like to try. It is a place where new groups are suggested and new ideas are born. Our U3A needs this time of regeneration.

Most of the activities will have a "stall" where you can see what they do and talk to existing members. Committee members will also be available to answer any questions on the U3A.

New Members' Meeting

A meeting for new members will be held in October 2018. Details are available on the website.

This is an excellent opportunity to meet members of the Management Committee and find out how the Swindon U3A works and what you can get out of it. You will also find out how you can contribute.

The Monthly Meeting

The Monthly Meeting sounds like some type of committee meeting but it is far from that!

So, for those of you who may be new to U3A, or unfamiliar with what the Monthly Meeting has to offer, here is a bit of a run-down on what's on offer.

The meeting takes place on the second Monday in each month, at the Ellendune Centre in Wroughton, from 2:15pm to about 3:30pm.

It is open to all members of the U3A, at no additional cost, and on an ad-hoc basis. In other words, you do not have to commit to "joining" as with most other U3A groups. There is no waiting list. Just turn up on the day.

The invited speaker gives a talk, lasting for about an hour, and then there is tea and coffee to follow, for which the small charge of 20p is made.

There is also the opportunity to swap jigsaw puzzles at the very popular puzzle exchange.

The speakers for these meetings are booked well in advance and cover a myriad of topics, including natural history, comedy, how the Queen's Bodyguard works and the Air Ambulance Service. There is something of interest for everyone.

You will find a full programme for each year in the U3A Yearbook, which you will receive when you join or renew your membership. In addition, every meeting is advertised in advance in the Newsletter or What's On. If you cannot put your hands on any of these items, then just turn up on the second Monday in any month and see what is going on.

We look forward to your company.

Jigsaw Puzzle Exchange

There will be a chance to donate or borrow a variety of jigsaws at each Monthly Meeting. We make no charge, but please remember to return them as soon as possible and let us know if any pieces are missing.

Monthly Meetings

These are held at the Ellendune Community Centre, Wroughton on the second Monday of each month at 2:15pm.

All U3A members are welcome.

List of Groups Currently Available

There is a wide choice of groups available for you to join but please check with the group organiser to see if there are spaces available. If you cannot see a group that interests you, consider starting your own group. A great deal of help is available from the U3A to guide you on how to do this. Please contact the Group Coordinator by email to group.coord@swindonu3a.org.uk.

The U3A takes a short break over the summer and if your group continues through this break you will be asked to contribute a small amount to cover any venue costs.

The list is by day of the week and by time of day within each day. There is an index on the next two pages where you can see all the groups together alphabetically and links to each day. Please click on an activity or day to be taken straight to that activity or day. Pages have a link at the bottom which will bring you back to the index.

Learn how to programme a website with HTML, PHP and SQL. How to create a dynamic article for the web. How to create a form on the web that can be completed by a user. How to store the data collected and display it again for editing. An inquiring mind, a flair for organisation and a reasonable familiarity with a PC and the web are good starting attributes. If you have used a spreadsheet with some of the in-cell programming facilities such as functions or logical tests, or macros then you have already started with the basics of programming.
